ABOUT US

Optimal Light was established in 2014 in Saudi Arabia to carry off the big dreams of being an accomplished global designer, manufacturer and distributor of energy saving environment-friendly lighting and Electrical products by applying the latest technology and innovation in the industry. Optimal light has successfully developed a series of futuristic products from led bulbs and tubes to street lights and high mast lamps. Currently we have more than 300 lighting products covering different ranges of commercial residential and industrial applications. Optimal light has a highly motivated and dedicated team who strive to bring out and apply the latest technology and trends in the lighting industry and market. Quality and innovation are the guiding principles that define optimal light and drive our activities ahead and make us a unique brand in the industry.

Optimal light lighting products are manufactured using cutting edge technology and from high-quality raw materials and branded components. Every product goes through meticulous testing at advanced laboratories and production facilities, to ensure best quality and efficiency.

Optimal light has large warehouses and retail showrooms in major cities of Saudi Arabia like Dammam, Al Khobar, Riyadh, Jeddah and Khamees Mushait. Optimal light has a strong project sales team who can support any range of projects from feasibility study, lighting designing, lux calculation etc and they are available in all major cities of KSA.

Optimal light has completed hundreds of big, medium and small projects in different provinces of Saudi Arabia. Our projects include governmental, commercial and industrial categories. Please visit our project page to get a glimpse of our projects.

Optimal Light also supplies Wiring Devices, Enclosures, Load centers, Breakers, Cables and Conduits and general Electrical products from reputed global brands.
